STORY BOARD

1 When a user touches a screen,
It is displayed according to eye level.

2 By simply double-clicking on the screen,
the child can use it without inconvenience.

3 You can measure the child's height just
by drawing a line on the screen.

4 Then, you can know the child's detailed
health condition by graph.

5 The screen shows the recipe according
to the health condition of the child

5 You can cook for your child using
the recipe
